Radiation Therapy Questions To Ask

Date: _____

Name: _____

Questions to Ask Your Radiation Oncologist

- What is radiation therapy?
 - What is the goal of this treatment? Is it to eliminate the cancer?
 - What are the chances that this treatment will prevent the cancer from coming back?
 - How often will I receive radiation therapy?
 - How much time will each treatment take?
 - Will each treatment be the same?
 - Does the radiation dose or area treated change at all throughout the period of treatment?
 - What can I do to get ready for this treatment?
 - How will this treatment affect my daily life?
 - Will you describe what I will experience when I receive radiation therapy?
 - Will the radiation hurt?
 - What are the potential side effects of this treatment?
 - How can I ease side effects?
 - How will my skin be affected during radiation therapy?
 - What skin products can I use each day?
 - Do I need to be concerned about sun exposure?
 - Should I avoid certain foods, vitamins, or supplements?
 - Are there special services for patients receiving radiation therapy, such as certain parking spaces or parking rates?
-
-
